

## MANAGEMENT UNIT: ROGER'S CREEK

### MANAGEMENT INTENT

- ° Settlement in this area should be designed to preserve adequate open space for the big game migration corridor between the Hatcher Pass Management Unit and the Susitna River. The Roger's Creek Unit is an important big game harvest area.
- ° Management of public lands adjacent to the Parks Highway should be consistent with the recommendations of the report "Scenic Resources Along the Parks Highway." The recommendations in that report which are relevant to the Willow Sub-basin are in Appendix 1. The borough and state will encourage private land owners to follow recommendations in the report in order to protect the scenic values along the highway.

### Recommended Land Uses

- Settlement (avoid continuous development along highway which could impede animal movement)
- Fish and Wildlife (habitat, big game movement, and harvest)
- Parks Highway Scenic Areas
- Forestry
